

What you can ask Budtello

Questions a dispensary's owners, managers and budtenders can ask their AI app, from today's list of what it answers.

Version 2026-10-29 · October 29, 2026

askbud io LLC, dba Budtello · 30 N Gould St #61660, Sheridan, WY 82801 · budtello.com

Your data stays yours. Store answers cover only your own business, and only the stores you have access to. Ask in your own words; these are examples, not commands.

Sales and discounts

- *“What were sales at your store on 20 Oct 2026?”*
Sales and discount percentage for one store or all of them, for a day or a range of dates.
Data: Dutchie · Who: owners, admins and managers
- *“Sales by budtender at your store last week - who sold the most?”*
Each budtender’s sales, number of sales and discount percentage, for a day or a range of dates.
Data: Dutchie · Who: owners, admins and managers
- *“Discounts for all stores, percentage-wise, this month so far?”*
Discounts in depth: the overall percentage, by budtender, by hour of the day, sale by sale, and anything unusual.
Data: Dutchie · Who: owners, admins and managers
- *“How did the chain do in September compared with August?”*
Month against month, or this year against last, for each store and the whole business.
Data: Dutchie · Who: owners, admins and managers
- *“What are the top sellers at your store over the last 30 days?”*
Your best or slowest sellers over the last 7, 30, 90 or 365 days or exact dates, product by product; narrow it to a brand or category.
Data: Dutchie · Who: owners, admins and managers
- *“Which brands sold the most across all stores in the last 30 days?”*
Which brands sell the most, in dollars and units, for a period; narrow it to a category.
Data: Dutchie · Who: owners, admins and managers
- *“What is moving slowly at your store that we should send back?”*
Products that sold nothing, or very little, in the last 60 days, with what is on hand.
Data: Dutchie · Who: owners, admins and managers

Stock at your stores

- *“What pre-rolls do we have at your store?”*
What your stores held as of last night: packages, quantity, room, potency and lab status, or what is on the sales floor.
Data: Dutchie and Metrc · Who: your whole team
- *“What edibles should we push at your store today?”*
The slowest-selling items on the sales floor to recommend today, up to five per category.
Data: Dutchie · Who: your whole team
- *“What should we bring out from the back at your store?”*
Back stock with nothing on the sales floor, longest sitting first, with the package to bring out.
Data: Dutchie · Who: your whole team
- *“What should we reorder at your store?”*

What to reorder, ranked by the last 30 days' sales, with items that have not sold in 90 days set apart; flower can be matched to lots on the Budtello market.

Data: Dutchie and Budtello · Who: owners, admins and managers

- *"What is expiring in the next 30 days across all stores?"*

Packages expiring soon or already expired, or packages with no passing lab test.

Data: Dutchie and Metrc · Who: your whole team

- *"Is inventory reconciled at your store for yesterday?"*

A sales-floor count you saved, against what the system says, per category, for one store and day.

Data: Dutchie and Budtello · Who: owners, admins and managers

- *"What notes has the team left on products at your store?"*

The notes your team left on products.

Data: Budtello · Who: owners, admins and managers

Margins, waste and cash

- *"Are my margins okay at your store?"*

Margin at shelf price, before discounts, on the stock on the shelf now, by store, category or product.

Data: Dutchie · Who: owners, admins and managers

- *"Which items are we selling below cost?"*

Items priced below what they cost.

Data: Dutchie · Who: owners, admins and managers

- *"How much did we waste at your store last month?"*

Product lost to waste, in dollars, by reason and product.

Data: Dutchie · Who: owners, admins and managers

- *"Is yesterday's cash reconciled at your store?"*

Cash drops and drawer closeouts from the point of sale, and the drops you saved in Budtello, for one store and day.

Data: Dutchie and Budtello · Who: owners, admins and managers

- *"Who did the most adjustments at your store last month, and how does that compare with the others?"*

Stock adjustments: who wrote off what, when, where, why and at what cost; each person against the others at the same store, with reasons to look closer.

Data: Dutchie · Who: owners, admins and managers

- *"Losses last week by store and manager, vs the week before and last year?"*

Write-offs, voids, returns and discounts applied by hand, each kept apart, per store and person, against the period before and the same period last year.

Data: Dutchie · Who: owners, admins and managers

Save something (read back first)

-
- *“Record a \$1,200 cash drop for your store.”*
Saves a blind cash drop for a store and day, after reading it back to you.
Data: Budtello · Who: owners, admins and managers
